

Ever thought of hiring a CISO with post-compromise recovery experience to work alongside the CIO / CISO?

Our 'seasoned professionals' implement short term fixes and solutions whilst planning for long term sustainable change in the security of your business

We bring in seasoned, battle-hardened, highly successful individuals, for a short period of time

We ensure knowledge transfer and make ourselves redundant in as short a time as is feasible

OUR HOURS ARE YOUR YEARS

Are you, the CIO, worried about your security function, post-compromise?

Are you, the CISO, worried about conducting business-as-usual, post-compromise?

You need to allay your fears now

Bring in a CISO with deep post-compromise recovery experience

Bridge the 'gap' between the business and the security function post-compromise

To aid the strategic recovery necessary post-compromise

Allowing the CISO to continue business-as-usual
